

Section 1: Product & Company Identification

Product Name: True Tap® EV

Product Number (s): 03450, 03451, 03452

Manufactured By: CRC Industries, Inc. 885 Louis Drive Warminster, PA 18974 www.crcindustries.com

 General Information
 (215) 674-4300

 Technical Assistance
 (800) 521-3168

 Customer Service
 (800) 272-4620

 24-Hr Emergency (CHEMTREC)
 (800) 424-9300

Section 2: Hazards Identification

Emergency Overview	
Appearance & Odor: Colorless liquid; irritating odor at high concentrations	
WARNING	
Vapor Harmful.	

As defined by OSHA's Hazard Communication Standard, this product is hazardous.

Potential Health Effects:

EYE:	May cause pain and slight eye irritation. Corneal injury is unlikely. Vapors may irritate eyes.
SKIN:	Prolonged or repeated exposure may cause skin irritation. May cause drying or flaking of skin. A single prolonged exposure is not likely to result in the material being absorbed through skin in harmful amounts.
INHALATION:	Low level exposure may cause anesthetic or irritant effects. Higher exposure levels may lead to dizziness and drunkenness. Progressively higher levels or longer exposure may cause unconsciousness and death.
INGESTION:	Single dose oral toxicity is considered to be low. Swallowing large amounts may cause serious injury, even death. If aspirated into lungs, during swallowing or vomiting, liquid may be rapidly absorbed through the lungs and result in injury to other body systems.
CHRONIC EFFECTS:	Chronic immersion of skin in this liquid may lead to absorption through skin. This may cause numbness in the immersed area. Excessive inhalation of vapors may increase sensitivity to epinephrine and increase myocardial irritability.
TARGET ORGANS:	Central nervous system. Possibly peripheral nervous system, liver or kidney.

See Section 11 for toxicology and carcinogenicity information on product ingredients.

Section 3: Composition/Information on Ingredients

COMPONENT	CAS NUMBER	% by Wt.
Trichloroethylene (TCE)	79-01-6	> 80
Petroleum hydrocarbon	64742-52-5	> 5

Section 4: First Aid Measures

Eve Contact. Infinediately fush with plenty of water for 15 minutes. Call a physician infination pe	Eye Contact:	Immediately flush with plenty of water for 15 minutes.	Call a physician if irritation persist
---	--------------	--	--

- Skin Contact: Remove contaminated clothing and wash affected area with soap and water. Call a physician if irritation persists. Wash contaminated clothing prior to re-use.
- Inhalation: Remove person to fresh air. Keep person calm. If not breathing, give artificial respiration. If breathing is difficult give oxygen. Call a physician.

Ingestion: Do not induce vomiting. Call a physician immediately.

Note to Physicians: Because rapid absorption may occur through lungs if aspirated and cause systemic effects, the decision of whether to induce vomiting or not should be made by a physician. If lavage is performed, suggest endotracheal and/or esophageal control. Danger from lung aspiration must be weighed against toxicity when considering emptying the stomach. Exposure may increase myocardial irritability. Do not administer sympathomimetic drugs unless absolutely necessary. No specific antidote. Supportive care.

Section 5: Fire-Fighting Measures

Flammable Properties:	This material is nonflammable according to OSHA definitions, however, it can be made to burn under certain conditions.			
Flash Point: Autoignition Temperature:	None (TCC) 788 F	Upper Explosive Limit: Lower Explosive Limit:	44.8% 8.0%	
Suitable Extinguishing Media:	Water fog or fine spray. Carbon dioxide, dry chemical, foam. Class B fire extinguisher.			
Products of Combustion:	Hydrogen chloride, trace amounts of phosgene, chlorine, and carbon monoxide.			
Protection of Fire-Fighters:	Firefighters should wear self-contained, NIOSH-approved breathing apparatus for protection against suffocation and possible toxic decomposition products. Proper eye and skin protection should be provided. Use water spray to keep fire-exposed containers cool and to knock down vapors which may result from product decomposition. Gases may accumulate in low areas.			

Section 6: Accidental Release Measures

Personal Precautions: Use personal protection recommended in Section 8. Do not breathe vapors.

Product Name: True Tap	® EV	Product Number (s): 03450, 03451, 03452		
•		ecautions to prevent contamination of ground and surface waters. Do not flush vers or storm drains.		
Methods for Containment & Clean-up:		Dike area to contain spill. Ventilate the area with fresh air. If in confined space or limited air circulation area, clean-up workers should wear appropriate respiratory protection. Recover or absorb spilled material using an absorbent designed for chemical spills. Place used absorbents into proper waste containers.		

Section 7: Handling and Storage

- Handling Procedures: Vapors of this product are heavier than air and will collect in low areas. Make sure ventilation removes vapors from low areas. Keep containers closed when not in use. Do not eat, drink or smoke while using this product. Do not cut, drill or weld on or near empty containers.
- Storage Procedures: Store in a cool dry area out of direct sunlight.

Aerosol Storage Level: NA

Section 8: Exposure Controls/Personal Protection

Exposure Guidelines:

	OSHA		ACGIH		OTHER		
COMPONENT	TWA	STEL	TWA	STEL	TWA	SOURCE	UNIT
Trichloroethylene (TCE)	100	200 (v)	50	100	5	mfg**	ppm
Petroleum hydrocarbon	5*	N.E.	5*	N.E.	N.E.		mg/m ³
N.E. – Not Established	(c) – ce	iling (s)	– skin	(v) – va	cated	* - oil mist	

** TCE manufacturer's internal PEL

Engineering Controls:	Area should have ventilation to provide fresh air. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at the source, preventing dispersion into the general work area. Use mechanical means if necessary to maintain vapor levels below the exposure guidelines. If working in a confined space, follow applicable OSHA regulations.
Respiratory Protection:	None required for normal work where adequate ventilation is provided. If engineering controls are not feasible or if exposure exceeds the applicable exposure limits, use NIOSH-approved cartridge respirator with organic vapor cartridges. Use a self-contained breathing apparatus in confined spaces and for emergencies.
Eye/face Protection:	For normal conditions, wear safety glasses. Where there is reasonable probability of liquid contact, wear splash-proof goggles.
Skin Protection:	Use protective gloves such as PVA and Viton. Also , use full protective clothing if there is prolonged or repeated contact of liquid with skin.

Section 9: Physical and Chemical Properties

Product Name: True Tap® EV

Odor: Irritating odor at high concentrations
Specific Gravity: 1.44
Initial Boiling Point: 189 F
Freezing Point: ND
Vapor Pressure: 60 mmHg @ 68 F (20 C)
Vapor Density: 4.53 (air = 1)
Evaporation Rate: >1 (ether = 1)
Solubility: 0.1 g / 100 g @ 25 C (in water)
pH: NA
Volatile Organic Compounds: <u>wt %</u> : > 80 <u>g/L</u> : < 1200 <u>lbs./gal:</u> < 10

Section 10: Stability and Reactivity

Stability:	Stable		
			sunlight or ultraviolet sources. Avoid open flames, welding arcs, or other high sources which induce thermal decomposition.
Incompatible Ma	Incompatible Materials: Avoid contact with powdered metals such as: aluminum powders, magnesi potassium, sodium, and zinc powder. Avoid unintended contact with amine contact with strong bases and strong oxidizers.		
Hazardous Decomposition Products:		Products:	Hydrogen chloride, trace amounts of chlorine and phosgene
Possibility of Hazardous Reactions:		actions:	No

Section 11: Toxicological Information

Long-term toxicological studies have not been conducted for this product. The following information is available for components of this product.

ACUTE EFFECTS

<u>Component</u>	<u>Test</u>	<u>Result</u>	<u>Route</u>	<u>Species</u>
trichloroethylene	LD50	10,000 mg/kg	dermal	rabbit
trichloroethylene	LD50	4920 mg/kg	oral	rat
trichloroethylene	LC50	12,500 ppm (4H)	inhalation	rat

CHRONIC EFFECTS

Carcinogenicity:

	<u>Component</u>	<u>Result</u>
OSHA:	trichloroethylene	hazard communication carcinogen
IARC:	trichloroethylene	2A (probably carcinogenic)
NTP:	trichloroethylene	Reasonably anticipated to be a carcinogen
Mutagenicity:	trichloroethylene	in vitro mutagenicity studies were negative animal mutagenicity studies were predominantly negative

Section 12: Ecological Information

Product Name: True Tap® EV

Product Number (s): 03450, 03451, 03452

Ecotoxicity: Persistence / Degradability: Bioaccumulation / Accumulation: Mobility in Environment: Material is moderately toxic to aquatic organisms on an acute basis. Biodegradation may occur under both aerobic and anaerobic conditions. Bioconcentration potential is low (BCF less than 100). Potential for mobility in soil is high.

Section 13: Disposal Considerations

Disposal: This product is a RCRA hazardous waste for toxicity with the following potential waste codes: U228, F001, F002, D040. (See 40 CFR Part 261.20 – 261.33) If this waste is mixed with other wastes, the mixture will be a hazardous waste.

All disposal activities must comply with federal, state and local regulations. Local regulations may be more stringent than state or national requirements.

Section 14: Transport Information

Proper shipping description:

US DOT (ground):	03450	Consumer Commodity, ORM-D
	03451	Consumer Commodity, ORM-D
	03452	Trichloroethylene Solution, 6.1, UN1710, PG III

Special Provisions: None

Section 15: Regulatory Information

U.S. Federal

Toxic Substances Control Act (TSCA):

All ingredients are either listed on the TSCA inventory or are exempt.

Comprehensive Environmental Response, Compensation and Liability Act (CERCLA):

Reportable Quantities (RQ's) exist for the following ingredients: trichloroethylene (100 lbs)

Spills or releases resulting in the loss of any ingredient at or above its RQ require immediate notification to the National Response Center (800-424-8802) and to your Local Emergency Planning Committee.

Superfund Amendments Reauthorization Act (SARA) Title III:

Section 302 Extremely Hazardous Substances (EHS): None

Fire Hazard	No
Reactive Hazard	No
Release of Pressure	No
Acute Health Hazard	Yes
Chronic Health Hazard	Yes
	Reactive Hazard Release of Pressure Acute Health Hazard

Section 313 Toxic Chemicals: This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372: trichloroethylene (> 80%)

PPE:

В

Clean Air Act:

Section 112 Hazardous Air Pollutants (HAPs): trichloroethylene

State Regulations

California Safe Drinking Water and Toxic Enforcement Act (Prop 65):

This product may contain the following chemicals known to the state of California to cause cancer, birth defects or other reproductive harm: trichloroethylene

State Right to Know:

New Jersey:	79-01-6
Pennsylvania:	79-01-6
Massachusetts:	79-01-6
Rhode Island :	79-01-6

Additional Regulatory Information: None

Section 16: Other Information

NFPA:	Health:	2	Flammability:	1	Reactivity:	0
HMIS:	Health:	2	Flammability:	1	Reactivity:	0
